Warm Hearts for Our Community

Hello, everyone! I'm Yuna, and I'm the leader of Warm Hearts, a club at our school. Our club has solved some problems in our school and our community over the past few years. I want to share our stories.

One day, our school principal announced, "Our students often take too much food and waste it at lunchtime. How can we reduce food waste?"

The members of Warm Hearts gathered to solve this problem. We thought that adding lines to food trays would be helpful. Students could look at the lines and take the right amount of food.

Our school principal liked this idea, so he changed the food trays in the cafeteria. It was a success! The new trays reduced a large amount of food waste!

After we solved this problem at our school, we started to look for problems in our community. We found out that some roads around our school were very dark at night. We all agreed that the roads needed more lights. With the help of a teacher, we put up lights with sensors around the neighborhood. Now all our neighbors feel safer than before!

Have you ever used a digital kiosk before? You may think it's easy. But some people have trouble using kiosks.

To help them, we volunteered as digital guides at the community center. We explained every step of ordering: starting an order, choosing from the menu, and paying.

After the class, people said, "Now we feel more comfortable with kiosks. Thank you so much!" We felt very proud.

As you can see, your actions can make positive changes. Even the smallest acts can make a big difference!
