Have a Good Talk!

The new school year is here! Do you get nervous when you talk to other students? Do you have trouble starting conversations? Having a good conversation is not easy. But don't worry. Here are some tips to have a good conversation.

1 Start with small talk.

Begin conversations with an easy topic. Talk about the weather or hobbies. For example, say, "The weather is so nice today, isn't it?" Then the other person can answer easily. Small talk can lead to other fun topics to talk about.

2 Listen actively.

Don't just sit still and listen. Actively listen. Make eye contact with the speaker. Nod your head from time to time. You can also say, "Right," or "I see." These things will show that you're really listening.

3 Use body language.

Use good gestures. When you say, "I don't know," you can raise your shoulders and hands. You can also make facial expressions. Lift your eyebrows or stick out your lower lip. Use good body language, and your message will be stronger and clearer.

4 Share your story.

Be brave and tell your personal story. For example, you can talk about your childhood. You can say, "When I was 10, I was the slowest runner in my class." When you open up, the other person will do the same. This can lead to a more meaningful conversation.

5 Respect others.

Different people have different opinions. You need to respect others' ideas. Say things like, "That's really interesting." When you disagree, you can say, "That's a good point, but I have a different opinion." Show respect to others, and they will show respect to you.

Follow these tips, and everyone will want to talk with you. You will be the greatest talker in the class.
