

Lesson 3 That's Creative!

Functions

- 물건의 용도 묻고 답하기

A: What is it for?

B: It's for cleaning glasses.

- 계획 말하기

I'm planning to throw a party.

Forms

- 현재완료

I **have ridden** bikes for about 10 years.

- 수동태

Your phone **is charged by** this power.

Everyday Communication 1

A

1

W This little thing looks interesting. What is it for?

M It's for cleaning glasses.

W Oh, that's cool. Can I try it?

M Of course. It cleans both sides of your glasses at the same time.

2

W Excuse me. What is this round thing for?

M It's for boiling eggs. You can put it in the water with eggs.

W How does it work?

M When the eggs are cooked, it changes its color.

W How creative!

3

M Amy, this lamp looks nice.

W Actually, it's not a lamp.

M Then, what is it for?

W It's for cleaning up your desk after you use your eraser.

M That's very useful. I should get one.

C

W Look at this stick. A teenager invented this.

M What is it for? Is it a hiking stick?

W No, it's not for hiking. It's for helping blind people.

M Really? How does it work?

W It gives directions by sound when they walk.

M Oh, that's so smart.

Everyday Communication 2

A

1 W What are you planning to do after school?

M I'm planning to run in the gym. I need to practice for the race on Sports Day.

W I didn't know you are going to run in the race.

Good luck!

M Thank you.

2

M I'm planning to throw a party for my best friend, Jake.

W Is it for his birthday?

M No, he's moving to a different city next week.

W That's very sweet of you.

M Thanks. I want to create a special memory with him.

3

W Andy, do you have any plans this weekend?

M Yeah, I'm planning to create a song with my cousin.

W Oh, really? How?

M We found a useful AI app. We're going to use it.

W Wow, that sounds interesting. I'd love to hear the song when it's done.

C

M What are you planning to do this weekend, Lucy?

W I'm planning to make something for the invention fair.

M What do you want to invent?

W I'm thinking of a special fork.

M A special fork?

W Yeah, it can cool the food down. It will help little children when they eat hot food.

M Oh, that's an interesting idea!

Wrap Up

1

W There are so many interesting things in the museum. This looks interesting.

M This is called Jige. It was used in the past in Korea.

W What was it for?

M It was for carrying heavy things. People wore it on their backs.

2

M Bomi, do you have any plans for the holiday?

W I'm planning to visit my grandparents. How about you?

M I'm planning to go hiking with my dad.

W That sounds great. Have a wonderful time!

Creative Minds of Teens

Ted Hello, everyone. I'm Ted from Top Inventions.

Today, we will meet some teen inventors at the Invention Fair and hear about their work. Hi, Thomas. Can you tell me about your invention?

Thomas I invented the Wind Power. It's a phone charger and it uses wind to make power.

Ted That sounds interesting. Can you tell us more about it?

Thomas Sure. I love riding a bike. I have ridden bikes for about 10 years. My phone often ran out of battery during long rides, so I made this charger with a small fan. When you ride a bike with this small fan, the wind turns the fan and makes power. Your phone is charged by this power.

Ted Wow, that's a great idea. I'd like to get this phone charger for my bike.

Ted Let's meet another inventor. Hi, Kelly. What is your invention?

Kelly I made the Sitbag. It is a bag, but it can also turn into a chair. My grandmother fell and hurt her leg last year. Since then, she has had trouble walking. So, she often needs to rest, but there are not many benches on the streets. The Sitbag is designed for elderly people like her.

Ted That's so thoughtful, Kelly. It will be really helpful for the elderly.

Ted Now, here is our final inventor. Hi, Minji, can you tell us about your invention?

Minji In art class, we make dirty paint water and it is bad for the environment. I thought it was a big problem. One day, my mom was throwing away old water filters. At that moment, I thought I could use them in the art rooms. This is the Green Art Box. It uses old water filters to clean the dirty paint water.

Ted That's a great green invention.

Today, we've seen some creative ideas. These teenagers have focused on problems and come up with solutions. I hope their inventions will make our world better.
