## Colors in Soccer

Soccer is a popular sport all over the world. It is also quite simple. You just need a ball, a small open space, and the desire to kick! Oh, don't forget one more thing. You need to understand the importance of colors!

### Black and White Soccer Balls

Soccer balls today come in various colors, but black and white balls are quite common. Have you heard about the origin of this popular design? Black and white balls came out during the 1970 World Cup in Mexico. People could spot them easily on their black and white TVs. Isn't that smart? Now we have color televisions, but we still kick the classic black and white soccer balls.

## The Uniform Colors

Players on each team wear uniforms with their own colors. Uniform colors have the power to unite the team under the same spirit. They are also useful on the field. Players can spot each other and make quick decisions thanks to their team's unique colors. On the field, referees wear uniforms with special colors because they need to stand out from the players. Among several colors, black has been their favorite. Black looks powerful, and it sends a strong "Don't argue with me!" message.

## Color Cards for Communication

Referees have used yellow and red cards since 1970. Different color cards send different messages to players. Yellow cards say, "Be careful with those fouls!" Red cards mean "You're out!" All players from different countries clearly understand the meaning of these cards.

Do you have a plan to watch a soccer match? Then check out the various colors on the field. It will be more fun!
