

## Lesson 5 Love, Act, Save!

의사소통기능

- 방법 묻기

A: What can I do to reduce plastic waste?

B: You can recycle plastic cups and bottles.

- 상기시키기

Don't forget to carry a reusable bottle.

언어 형식

- 가주어/진주어

It is important to do our part for Venice.

- the + 비교급 ~ the + 비교급...

The warmer the Earth gets, the higher the water in

Venice rises.

### Topic 1 A

1

G: We need to save energy to slow down global warming.

B: You're right. What can we do to save energy?

G: We can use the air conditioner less often.

B: Yeah. That would save a lot of energy.

G: And don't forget to turn off the light when you leave a room.

2

B: Look at all the plastic waste!

G: Oh, no! What can I do to reduce plastic waste?

B: You can recycle plastic cups and bottles.

G: Okay. What else can I do?

B: Don't forget to carry a reusable bottle.

3

G: The air is terrible today.

B: Yeah. The sky looks gray. What can we do to reduce air pollution?

G: We can plant more trees.

B: Right. Trees will help clean the air.

G: And don't forget to ride your bike or walk to nearby places.

**Topic 1 B**

G: Eric, I like your bag! It's so cute.

B: Thanks, Yena. I made it from old jeans.

G: Really? That's amazing!

B: We can make new things from old things. It's called upcycling.

G: I'd like to try it. What can I do to start upcycling?

B: First, you can find something you don't need.

G: Well, I have an old skirt at home.

B: Good. Then think about an item you want to make.

G: Oh, I want to make a pencil case.

B: Perfect. And don't forget to wash the skirt before upcycling.

**Topic 2**

Lucy: Jake, are you throwing out that backpack?

Jake: Yeah. I don't really use it anymore.

Lucy: But it looks new. These days, people throw out so many good items.

Jake: Right. Someone can still use my backpack.

What can I do to find a new owner for it?

Lucy: You can sell it through an online flea market.

Jake: That sounds good. I'll give it a try.

Lucy: Great. Don't forget to post pictures of the backpack.

Jake: Thanks for the tip.

Lucy: No problem!

**Check Up**

A

G: Brian, how about having a picnic tomorrow?

B: Sounds good! What can we do to reduce waste at the picnic?

G: We can use reusable cups.

B: Right. What else?

G: Don't forget to bring reusable forks and spoons.

B: Sure, no problem. See you tomorrow!

B

G: Look at the sky! It's gray.

B: Yeah. Air pollution is a big problem.

G: What can we do to reduce air pollution?

B: Start with little things. For example, walk to nearby places.

G: Oh, that's easy. Anything else?

B: Don't forget to care for your plants.

## 5과 본문

**Save the City on the Water**

Hello, friends! My name is Monica, and I live in Venice. Have you heard of Venice? It is a beautiful city on the water in Italy. Venice is famous for its canals and historic buildings. Many tourists come to see them every year.

But now, we have a big problem. Last week, the streets were flooded. I couldn't go to school, and my parents' bakery had to close. I had to wear tall rain boots all the time. I'm really worried. The warmer the Earth gets, the higher the water in Venice rises. Venice could be underwater soon. My city needs your help!

Hi, Monica! I'm Timothy from the United States. My family visited Venice three years ago and we loved it! I am surprised and sad to hear your news. I want to do my part to help your city and the Earth. I recently found out something interesting. The more meat we eat, the hotter our planet gets. This is because lots of trees are cut down to make animal farms. This increases greenhouse gases. Also, cows pass a lot of gas. Smelly!

But this is not the worst part. The gas from cows also adds to greenhouse gases. Greenhouse gases make the Earth hotter. So, I'm trying to eat less meat to slow down global warming. It isn't easy to change my eating habits, but I'm doing my best.

Hello, I'm Suin from Korea. Every summer, it rains a lot here. Sometimes, we have floods and they are really scary. The situation in Venice must be scary, too. I've never been to Venice, but I have seen many beautiful pictures of it. I talked to my friends about the floods in your city. We wanted to help Venice, so we started the 3R campaign. The 3Rs are Recycle, Reuse, and Reduce. Now, many students at my school are doing these three things every day. It is important to do our part for Venice. Together, we can make a difference!
