

Lesson 8 Explore the Night Sky

의사소통 기능

알고 있는지 묻기

A: Have you heard about the new movie?

B: No, I haven't.

기대 표현하기

A: Let's watch the movie together.

B: Sounds good! I'm looking forward to it.

언어 형식

접속사 if

If you connect them, they form the shape of a big spoon.

가주어 it

It was difficult **to catch** the bear.

Communication A

1

B Have you heard about the new documentary film Black Holes?

G No, I haven't. What's it about?

B It's about the secrets of black holes. I'm looking forward to watching it.

G That sounds cool. Maybe we can go together.

2

G Wow, look at this! There's a book signing by Daniel Baker at the bookstore this weekend.

B Who is he?

G He's a famous writer. Have you heard about the book Stories of Colorful Stars?

B Of course, I heard about the book in science class.

G Daniel Baker wrote it! I'm really looking forward to his book signing.

3

B Have you heard about the new space museum?

G Yes, I have. I really want to visit the museum. I can be an astronaut for the day.

B Me, too. We can wear spacesuits and eat space food. Will you go with me?

G Sure! I'm looking forward to it.

Communication C

Alex Hi! Have you heard about our school's science camp on December 10th?

Kate No, I haven't. What's it about?

Junho It's about stars. It has a lot of interesting programs. We'll watch stars at night.

Alex According to the weather forecast, we'll have clear skies. So, we can see the stars easily. I'm looking forward to it.

Kate What should we prepare for it?

Alex We'll be outside at night, so we need warm clothes.

Junho I heard we can use telescopes. We can see stars more easily with them. It'll be a special experience.

Kate Oh, I'm curious to see the moon through a telescope. Maybe I'll be able to find the rabbit in the old tale.

Alex Haha! I hope you can find it.

Junho I'm looking forward to this camp. See you then.

Express My Thoughts

B Hi, I'm Jake. Do you know the star pattern Gemini?

I want to give a new name to Gemini. It's "Best Friends." Doesn't it look like two people who are holding hands? They were best friends who had a lot of happy times together. Their friendship was very beautiful, so they were drawn in the sky. If you see "Best Friends" in the sky, think of great memories with your best friend. It's exciting to make new stories about star patterns. Try it!

Wrap Up

G Have you heard about the new movie Space Travel?

B No, I haven't. What's it about?

G It's about traveling to a mysterious planet. I'm looking forward to watching it.

Tales of the Big Dipper

Look up at the sky at night, and you will find seven bright stars in the north. If you connect them, they form the shape of a big spoon. People call it the Big Dipper. There are many stories about it around the world. Here are two of them.

In Korea, there is a story about seven brothers and the Big Dipper. Once upon a time, seven brothers lived with their sick mom. They heard there was a water spring over the mountain. People said the water could heal sickness. So, the brothers walked a long and hard path over the mountain to get the water. They gave it to their mom, and she finally got well. The Sky Emperor was touched by their love for their mom. Later, he turned the seven brothers into seven stars. These stars formed a big spoon shape in the night sky. If you see the Big Dipper, you can think of the seven brothers' love for their mom.

Native Americans have also told a special story about the Big Dipper. A long time ago, the Mohawk people found the tracks of a giant bear. This bear was taking all their food, so people were very hungry. It was difficult to catch the bear. Everyone was just scared. One night, three brothers of the Mohawk all had the same dream of catching the bear. They became brave and followed its tracks for many months to the world's end. There they saw the bear jump into the sky, and they jumped after it. Now, when you see the night sky, you can see the three brothers still chasing the bear.

As we have seen, people around the world create different and 10 interesting stories about the same stars. What new story can you imagine about the Big Dipper? Maybe people in the future will enjoy your story.
