The Last Wild Race

Do you know what the most challenging race in the world is? It is "The Last Wild Race"! You should join us in Southern Patagonia, Chile. It is one of the last wild areas on Earth! Every year, many teams from all over the world join the race. For this race, you need not only strength but also teamwork.

What Is the Race Like?

The race course is more than 500 kilometers long and it changes every year. Do you know when the teams find out the course for the year? Just a day before the race! During the race, each team goes through the wild by doing different activities. They walk on rough ground, ride bikes on tough roads, and row boats on rapid water.

The race is not just about sports. The teams also need to take care of nature. They must not make fires or leave trash behind during the race. Everyone should protect the natural environment of Southern Patagonia.

What Are the Rules of the Race?

To join the event, all teams must follow a few rules. For example, a team of four must have at least one man and one woman. Every member must show that they are healthy. Also, each team must pass some tests that check their skills in using ropes, reading maps, and giving first aid. This is important because the race is very tough, and everyone needs to be ready for the challenges. To finish the race, each team must reach every checkpoint. The first team to finish the race wins.
